

TOWN OF HAMMEL

Snowplowing Policy

All of the Town of Hammel roads where there is a residence that someone is living in are priority roads. The grader or snowplow will start in alternating directions according to the prevailing conditions. Driveways are not to be graded or plowed until all town roads are completed or open. In case of an emergency such as fire, sickness or some other disaster, it will be considered top priority. Wherever the grader or snowplow is at the time, it will go straight to the scene of the emergency and do whatever can be done to open the road.
